Work Experience

Jr. Front End Programmer

Jul 2018 - Aug 2019

New York Film Academy

New York, NY

- Code e-mail marketing campaigns and landing pages based on mockups and provided content.
- Segment mailing lists by making queries on the database.
- Deliver approved e-mail campaigns to the target market using an E-mail Marketing Automation Platform.
- Update the New York Film Academy (NYFA) websites.
- Perform QA testing to NYFA e-mail campaigns, landing pages, online applications, and websites.
- Keep track of workflows on Asana (a Project Management tool).
- Work closely with the Development, Design, and Marketing teams.

Web Developer, Freelance

Feb 2018 - Jul 2018

Second Language Design, NYC-based Creative and Marketing Agency

Remote

- Active communication with the team of designers, developers, and clients such as The North Carolina State University's College of Veterinary Medicine (painfreecats.org) and Acupuncture Remedies (aprpc.com).
- Develop WordPress websites for clients based on mockups and provided content.
- Perform QA testing across modern platforms and devices.
- Deliver the website to the client in their private hosting provider (e.g. Bluehost, GoDaddy).

Software Tester, Freelance

Sep 2014 - Jul 2018

uTest by Applause

Remote

- Execute test cases in web and native applications.
- Perform exploratory testing to identify any GUI, functional, or technical bug.

- Perform localization testing by verifying translations from English to Latin American Spanish.
- Submit a detailed bug report.

Additional Work Experience

Administrative Assistant

Mar 2008 - Jun 2015

Office of Fiscal Services, University of Puerto Rico, Rio Piedras Campus

San Juan, PR

- Advised employees on student employment policies and hiring procedures.
- Facilitated training to employees on how to record payroll entries through the database.
- Verified on-campus student-employee payrolls.
- Processed direct-deposit applications for student's financial aid.

Projects

Connect Four

<https://francheska-guzman.github.io/connect-four>

The classic two-player board game developed with HTML, CSS, and JavaScript.

Weather Forecast

<https://francheska-guzman.github.io/weather-forecast>

A weather web app that provides information such as temperature, pressure, and humidity of five cities. Developed with React, and requesting the data to a third party API.

Credit Report

<https://francheska-guzman.github.io/credit-report>

Financial web app that consume data from my API, and calculates the credit factors. Type 1 or 2 in the provided input field to get the user information. Built with React, Node.js, Express.js, and PostgreSQL.
