Work Experience

Web Developer / QA Manual Tester

Oct 2019 - Present

INVID LLC - Information Technology Company

San Juan, PR

- Participate in the process of the Software Development Life Cycle (SDLC).
- Create test plans, test suites and test cases using Azure Test Plans to track manual testing for sprints or milestones.
- Run manual tests and submit bug reports.
- Perform exploratory and regression testing.
- Provide usability feedback as well as recommendations to improve the quality of the product.
- Ensure that the content has consistent quality and voice in both English and Spanish languages.
- Write and/or review user manuals and guides.
- Attend daily Scrum meetings, sprint review, and sprint retrospective.

Jr. Front End Programmer

Jul 2018 - Aug 2019

New York Film Academy - School of Film and Acting

New York, NY

- Coded e-mail marketing campaigns (example: <https://www.nyfa.edu/eblast/nyfa-alumni-documentary-06-2019.html> and <https://www.nyfa.edu/eblast/australia-enroll-now-09-2019.html>) and landing pages based on mockups and provided content.
- Segmented mailing lists by making queries on the database.
- Delivered approved e-mail campaigns to the target market using an E-mail Marketing Automation Platform.
- Made updates to the New York Film Academy websites and WordPress sites.
- Coded the new version of the online applications (<https://www.nyfa.edu/application/mfa1.php>).
- Debugged e-mail campaigns, landing pages, online applications, and websites.
- Kept track of workflows on Asana and worked closely with the Development, Design, and Marketing teams.

Web Developer

Feb 2018 - Jul 2018

Second Language Design - Creative and Marketing Agency

New York, NY

- Maintained active communication with the team of designers, developers, and clients such as The North Carolina State University's College of Veterinary Medicine (<https://painfreecats.org>) and Acupuncture Remedies (<https://aprpc.com>).
- Developed WordPress sites for clients based on mockups and provided content.
- Performed QA testing across modern platforms and devices.
- Added meta tags for SEO and set up Google Analytics.
- Delivered the website to the client in their private hosting provider (Bluehost, GoDaddy).

Software Tester

Sep 2014 - Jul 2018

uTest - Crowdsourced Software Testing Community

Remote

- Read test cycle instructions and requirements, and learned about the product.
- Executed test cases in web and native applications.
- Performed exploratory testing to identify any GUI, functional, or technical bug.
- Performed localization testing by verifying translations from English to Latin American Spanish.
- Performed regression testing.
- Submitted detailed bug reports.

On-Campus Student Employee

Mar 2008 - Jun 2015

Fiscal Office at the University of Puerto Rico, Río Piedras Campus

San Juan, PR

- Advised employees on student employment policies and hiring procedures.
- Facilitated training to employees on how to record payroll entries through the Oracle database.
- Contributed to generating new spreadsheet files that automate all computations.
- Verified on-campus student employee payrolls. Added, edited, and deleted records to match the hours reported by the department with the entries in the database.
- Processed direct deposit applications for students' financial aid.
- Provided information to students regarding their scholarships, grants, student loans, and payroll.
- Provided orientation to students on how to claim a lost or stolen check, how to set up or cancel the direct deposit service, and address any other concern.
- Gave feedback about internal written communications, took a physical count of inventory, among other clerical duties.

Projects

Weather Forecast

<https://francheska-guzman.github.io/weather-forecast>

Weather web app that provides information such as temperature, pressure, and humidity of five cities. Developed with React.js and requesting the data from a third party API.
