Work Experience

Web Developer & QA Manual Tester

Oct 2019 - Present

INVID Group - Full-Service Information Technology Company

San Juan, PR

- Generate and execute test cases.
- Perform exploratory and regression testing.
- Provide usability feedback.
- Ensure that the content has consistent quality and voice in both English and Spanish languages.
- Write the user's manual.

Jr. Front End Programmer

Jul 2018 - Aug 2019

New York Film Academy - School of Film and Acting

New York, NY

- Coded e-mail marketing campaigns (example: <https://www.nyfa.edu/eblast/nyfa-alumni-documentary-06-2019.html> and <https://www.nyfa.edu/eblast/australia-enroll-now-09-2019.html>) and landing pages based on mockups and provided content.
- Segmented mailing lists by making queries on the database.
- Delivered approved e-mail campaigns to the target market using an E-mail Marketing Automation Platform.
- Made updates to the New York Film Academy websites and WordPress sites.
- Coded the new version of the online applications (<https://www.nyfa.edu/application/mfa1.php>).
- Debugged e-mail campaigns, landing pages, online applications, and websites.
- Kept track of workflows on Asana and worked closely with the Development, Design, and Marketing teams.

Web Developer

Feb 2018 - Jul 2018

Second Language Design - Creative and Marketing Agency

New York, NY

- Maintained active communication with the team of designers, developers, and clients such as The North Carolina State University's College of Veterinary Medicine (<https://painfreecats.org>) and Acupuncture Remedies (<https://aprpc.com>).

- Developed WordPress sites for clients based on mockups and provided content.
- Performed QA testing across modern platforms and devices.
- Delivered the website to the client in their private hosting provider (Bluehost, GoDaddy).

Software Tester

Sep 2014 - Jul 2018

uTest - Crowdsourced Software Testing Community

Remote

- Read test cycle instructions and requirements, and learned about the product.
- Executed test cases in web and native applications.
- Performed exploratory testing to identify any GUI, functional, or technical bug.
- Performed localization testing by verifying translations from English to Latin American Spanish.
- Performed regression testing.
- Submitted detailed bug reports.

On-Campus Student Employee

Mar 2008 - Jun 2015

Fiscal Office at the University of Puerto Rico, Río Piedras Campus

San Juan, PR

- Advised employees on student employment policies and hiring procedures.
- Facilitated training to employees on how to record payroll entries through the Oracle database.
- Contributed to generating new spreadsheet files that automate all computations.
- Verified on-campus student employee payrolls. Added, edited, and deleted records to match the hours reported by the department with the entries in the database.
- Processed direct deposit applications for students' financial aid.
- Provided information to students regarding their scholarships, grants, student loans, and payroll.
- Provided orientation to students on how to claim a lost or stolen check, how to set up or cancel the direct deposit service, and address any other concern.
- Gave feedback about internal written communications, took a physical count of inventory, among other clerical duties.

Projects

Connect Four

<https://francheska-guzman.github.io/connect-four>

The classic two-player board game developed with HTML, CSS, and JavaScript.

Weather Forecast

<https://francheska-guzman.github.io/weather-forecast>

Weather web app that provides information such as temperature, pressure, and humidity of five cities. Developed with React.js and requesting the data from a third party API.

Credit Report

<https://francheska-guzman.github.io/credit-report> and <https://creditreportapi.herokuapp.com>

Financial web app that consume data from the API and calculates the credit factors. Type "1" or "2" in the provided input field to get the user information. Built with React.js, Node.js, Express.js, and PostgreSQL.
