Work Experience

Abarca Health LLC - Pharmacy Benefit Manager (PBM)

San Juan, PR

Senior Software Testing Engineer

Apr 2022 - Present

- Develop and maintain UI and API automated test scripts and test data using C#, .NET, Selenium, SpecFlow, and NUnit.
- Develop and execute test cases in Azure Test Plans based on business requirements and both functional and non-functional specifications.
- Use black-box testing techniques such as equivalence partitioning, boundary value analysis, and decision table testing to efficiently determine the parameters and data that will be added in Azure Test Plans to achieve full test coverage.
- Execute API testing to validate endpoints requests and responses.
- Use tools such as Datadog and Hangfire to monitor and analyze system events.
- Execute SQL queries against Microsoft SQL Server databases to validate data accuracy.
- Mentor and onboard new team members on QA processes, tools, and best practices.

INVID LLC - Information Technology Company

San Juan, PR

Software QA Tester II

Oct 2019 - Apr 2022

- Developed and maintained automated UI test scripts using Cypress, Cucumber, and Mocha, improving regression testing efficiency.
- Contributed to the creation of guidelines to improve internal QA/QC procedures.
- Performed static reviews of requirements to identify defects early in the SDLC.
- Executed manual and exploratory testing across web and mobile applications.
- Conducted usability/accessibility testing for WCAG 2.1, ADA, and Section 508 compliance by using tools such as the Xcode Accessibility Inspector, Axe, SortSite, and Wave.
- Reported and tracked issues identified during testing activities to ensure defect resolution and testing completion.
- Collaborated on new ideas to resolve system issues and improve current systems.
